Understanding the capital of Germany with Lady Kotter and Signore Atala

Alternative guided city-tours on classic bicycles

At FindingBerlin-Tours bicycles have made a name for themselves by offering the chance to explore Berlin on unique restored road-bikes. “The bike is as essential as the actual tour“ explains Martin Balaš of FindingBerlin-Tours. He found bike tours in Berlin to be frustrating mostly because the rental bikes lacked real charm. “Why not provide bikes that are beautiful and unique, that are comfortable but are still easy and fast to ride? It is about bicycles that have style, with their own story and individual personality“, comments the tourism-consultant.

On a FindingBerlin-tour tourists get to know Germany’s capital from a different perspective. During the tours bikers are introduced to Berlin’s alternative culture and can reflect on the diversity, different lifestyles and artistic potentials of this town. With a maximum number of eight participants each tour is designed to keep a familiar atmosphere and to allow flexibility for individual requests. By visiting locations that represent the cityscape, participants get an impression of life in Berlin. „The purpose of the tours is to help our guests personally connect with the city and its people rather than merely looking at tourist sights“ says Balaš when asked about the idea of FindingBerlin-Tours.

Bicycles can be rented on a daily basis. A reservation is needed in advance for booking a tour. For more information, current prices and reservations go to www.findingberlin-tours.com.
